

Resume Dr. Rachel Jui-cheng Hsu

Rachel Hsu was awarded a Master degree of Science in Food Science at Rutgers University, NJ, USA and a PhD degree in Graduate Institute of Food Science at National Taiwan University, Taiwan.

Rachel has joined China Grain Products R&D Institute (CGPRDI) in Taiwan since 1991. In the first ten years, she applied herself in improving quality system and food safety for cereal and confectionary industry in Taiwan. Lately, as the health consciousness draws the attention of consumers, Rachel and her team established a functional foods network to integrate the resources from government, and academy for promoting functional foods industry in Taiwan. Through the effort of the network, many ingredients and functional foods have been developed and commercialized.

Rachel, as the chief of Technique Service Section of CGPRDI, not only devotes herself in bridging the academy and industry in cereal foods, but also being in charge of certification systems of CGPRDI such as ISO 22000, Total Quality Food, Clean Label to improve the quality and safety of cereal foods of Taiwan.

Moreover, Rachel being the representative of Institutional member of ICC for CGPRDI plays the role to coordinate the connection of Taiwan and ICC, such as holding several international ICC conferences in Taiwan. She has been serving as a member of ICC Executive Committee and Technical Committee respectively since 2016. Rachel sincerely hopes to contribute herself for a wonderful cereal world.
