

Pierre FEILLET

Brief resume:

An agricultural engineer, PhD, Pierre FEILLET is Emeritus Director of Research at the Institut National de la Recherche Agronomique (retired in 1999), where he was head of department and acting Director General. He was in charge of the biotechnology research program at Elf Aquitaine. He is a member of the Académie des technologies, the Académie d'agriculture de France and the International Academy of Food Science and Technology.
A former specialist in cereal genetic, biochemistry and processing, his current research focuses on the "technology, food and society" system.
