

Resume Phil Williams

Phil Williams was born on May 26th, 1933. He finished his Ph.D. work at Aberystwyth in 1957, and gained his Ph.D. in 1958. He didn't attend the graduation ceremony because he was at sea on the way to his first job at the Agricultural Research Institute, Wagga Wagga, NSW, Phil's first introduction to wheat. Phil worked at Wagga until September 1964, when he came to the Grain Research Laboratory, Winnipeg, Manitoba, on a post-doctoral fellowship. Half-way through the year Phil was offered a job at the GRL where he worked until March 31st, 2002.

Phil started to work with PDK Projects, Inc. in Winnipeg, mainly on the application of NIRS to the continuous on-line analysis of liquid hog-manure. Phil finally retired in the fall of 2017, and is filling my time in writing his life-story, where he is now up to 2007. Regrettably Phil's dear wife, Diane, is suffering from Dementia, so he is also a 24/7 care-giver.

Comprehensive, but easy-to learn books on Cereal Technology and Near-infrared Spectroscopy.
